When the year 1933 was approaching all the states and governments of the Earth went bankrupt and the world crisis started. All they endeavoured to come out of the crisis by rising economies. They needed big sums of money, which were in the hands of “money owners”. In 1934 a special law was issued after the events of 1933 according to the international agreement. Our present birth certificates founded on the basis of legal functioning bounded every person by credits and commitments (19\$ mln. USA dollars for one person per year) and identified us as debtors of the present “money owners”. This sum was identified as a rent and thus we became their guarantee of the global resource of the nature for every person separately. The volume of the credit depends on the member of inhabitants of every state for every person at the “money owners”. According to the persons obligation the state gets money from the banks by the duty that this state will be obliged to guarantee the quality of life of the person, work, etc. In the majority of passports of the world as well as foreign and internal ones all the letters of our names are written in capital letters, i.e. the world has come over to the legal taking away of freedom of the people. We became articles of commerce. United Nations (UN) manages all these affairs by way of the House of Trade. Since 1934 after the registration of the birth certificate an account is opened for every person at the International Central Bank (ICB) for the use of natural resources all over Earth. ICB is subject to Vatican, the Queen of Great Britain and UN. All our birth certificates are represented as securities at the International market. They are guarantors of ICB or bills, i.e. to become as the act of agreement as articles of trade. If you look attentively at your birth certificate, you will see a double inscription and act, a number and a series, since the moment when you got your birth certificate you become the guarantor of confidence according to the agreement of ICB, a paper – act which is the object of the security at the bank which is of some nominal worth, and this is exactly you. The parents must declare you as an alive person up to the age of 7 years of the child. If you didn't declare yourself as being alive you are considered **to be DEAD or EXTINCT** and all the rights to your wealth are given over to the Queen of Great Britain, UN and Vatican. International law is based on the oldest and unchanged norms of law, which are put down in the Law of Rome or the Law of the Sea accepted in 1540. The personification of these laws is done by Vatican as well as the Queen of Great Britain. After the Second World War the third guarantor of ICB is the guarantor which was newly created by ICB.

According to the “Law of Rome” or the “Law of the Sea” accepted in 1540 people are divided into three levels such as immunity, overseer and the underneath or Man, citizen and prisoner (slave, physical person, commodity). If we don't **declare as ALIVE** all sums of money belonging to us in ICB come over to the guarantor, i.e. the Queen of Great Britain, Vatican and UN. But the International Law foresees the procedure of a “Man ALIVE” at any age.

The procedure is called "**Declare yourself ALIVE**". Having undergone this procedure you have a right to get a compensation from ICB for using your ICB money and interest, till you are alive.

We were assured that the USSR was a Sovereign State. But we were not Sovereigns because we haven't undergone the procedure "**Declare yourself ALIVE**" according to the Law of the Sea of 1540.

This information was kept secret for a long time.

Before the Second World War, the USSR was not acknowledged by the International Law. The USSR was acknowledged as the founder of United Nations due to its victory during the Second World War. The USSR did not admit its rights in the field of International Law, because it had to acknowledge the three levels of people. The USSR considered all the people to be equal, but actually there were such levels as nomenclature, the middle class of workers and simple workers as well as office workers.

You may put a question: "What rights has a person in the field of International Law by **declaring himself ALIVE**?" On the grounds of simple arithmetic and foreseeing that a person will live a hundred years and the whole sum of money for his whole life is 19\$ mln. USA dollars and that is equal exactly to 100 years for each period of 12 months. The sum of money of one belonging to you is equal to 15 833\$ USA dollars monthly. This sum makes 4% of the interest of the sum used by the bank for its own aims and that money is not considered to act at the exchange.

Up till now the majority of the inhabitants of the countries of the Earth has undergone the procedure of "The Man ALIVE", except the parts of old Africa and some parts of Southern America. But the procedure is blocked for the people born in the former countries of the USSR. All the sums of money belonging to us in ICB were sent to Vatican, the Queen of Great Britain and UN. This is a dishonest global system of old "bad globalization". It allows the "money owners" to misappropriate the money belonging to us all. How to solve this problem by legal laws and laws of free mankind and to adjust them thoroughly to life?

Aleksander Valdemarovitch Schmidt born in the USSR and having become the citizen of Germany has prepared a programme in the course of 20 years. The programme is devoted to the creation of a new respectful "good globalization" uniting all the world without any exception. He took all responsibility for himself and offered a new economic system of **ISQD – International System of Qualitative Development**, uniting all people who want to make their life better, at the initial stage of work.

ISQD uses quotas of money of ICB for the emission and pays all its members Unconditional Basic Income – **UBI**.

The present procedure of "**Declare yourself ALIVE**" is possible only through the ISQD community, which is registered in Germany, and it means that you have a right to obtain the ICB guarantors and by making an agreement with the Firm of DRIMEX you become a SOVEREIGN – a Man ALIVE – and you obtain the highest status of a SOVEREIGN – "The Man ALIVE" - immunity.

To become "The Man ALIVE" or not depends only on you!

Your investment to creating the system ISQD is the quota for the emission to your compensation from ICB after the procedure of "The Man ALIVE". Every member of ISQD becomes the creator of the DRIMEX Bank and gets Unconditional Basic Income – UBI, which is equal to 2500 € to use them for personal needs to the end of your life.

The remaining seems will be devoted to renew the economics of the countries of the world as well as that of Russia. Having made the agreement you officially become the member of the firm of DRIMEX, where all the taxes are paid for you.

A Sovereign is person obedient only to the International Law.

A Sovereign is a peace-maker. We do NOT take part in politics, do not instigate wars, we do not rise slogans. We create an absolutely new economic system based on mutual respect, love, support for each other and not arising conflicts. We have one common idea, i.e. to live well, to be happy and truly.

ISQD is used to achieve this aim, it is a homogeneous algorithm, which turns cash into a real commodity. The quota for the emission of your compensation from CB will be kept in Germany, at the DRIMEX bank. You get UBI of all your life, i.e. every month you get the Unconditional Basic Income, which is equal to 2500 euros. It is the buying possibility for the contentment of your present needs, a part for your expensive purchasing, which you and your family needs and the remaining sum goes to meet the social needs of people.

There is no money for various speculations at the bank of DRIMEX. You write an application to the bank and it pays for these expenses from the emission of your quota. If you have some valuable ideas or projects for the development of economics, science or culture of your country you may declare about it to the bank and it will give it to the voting of the group of experts according to the adequate region. At the same time you get your compensation. If you want you may have your own business. ISQD system takes responsibility to guarantee the obtaining of the equipment you need. If your family enlarges then you register the new member of your family and he gets 2500 €.

Having entered the ISQD community and acquired the status of the immunity of "**The Man ALIVE**" you become a free Human of the Earth eternally. You finish your existence in the status of the slave. Now you can carry out all your dreams, plans, of which you could only dream.

From now on the happy families won't have any financial problems.

Their children will be joyfully, happy and healthy, abundance of any events and hobbies will be full of love. They will take a place in the lives of your dear parents and grandparents. At last, medicine will begin to cure and not damage us, at present we may have to look at every corner of our splendid Earth. Travelling is possible to all people. And not only that. It will be possible because the programme of ISQD will be brought to life.

The programme is a single algorithm. All this procedure is free of charge.

Thus, we come over to the procedure of registration in ISQD:

- Write an application expressing your wish to join to the ISQD community.
- Scan the copy of your basic page of your passport with your photograph.
- A certificate of your declared living place.
- Scan the copy of your birth certificate and those of your under aged children if there are such.
